

# SPONSORSHIP PROSPECTUS 2023

The University of Canterbury  
Computer Society

# Kia ora! We're CompSoc.

For 20 years, CompSoc has represented Computer Science and Software Engineering students at the University of Canterbury (UC).

Our goal is to help students thrive academically, professionally and socially during their time at UC.

Throughout the years CompSoc, being a non-profit, has been supported by sponsors who help in connecting our members with career opportunities and providing high-quality events.

We would love to invite you to partner with us by sponsoring our club in 2023!

# Why should you sponsor us?

## REACH

CompSoc has reached over 250 members this year. We are one of the largest clubs at UC.

By sponsoring us you will be able to spread awareness of your company and the opportunities you have open to bright and ambitious students.

## EVENTS

We offer high-quality collaborative events including mock speed interviews, graduate talks, hackathons, and much more where our sponsors can meet students in person or online and make meaningful connections.

## COMMUNITY

Our members and the larger CSSE student community will have significant exposure to your brand.

# Sponsoring CompSoc

## Why should you sponsor us?

Sponsoring CompSoc for 2023 gives sponsors exclusive access to our members and our events. Furthermore, CompSoc will collaborate with our sponsors to organise events, plan for promotions of brands and opportunities, and determine what our sponsors need in return for their sponsorship.

CompSoc endeavours to create a win-win situation for both our members and our sponsors. With sponsorship, our members will have access to more opportunities for training, academia, and personal development, whilst being part of an active student community. In exchange, our sponsors have access to a broader range of industry talents and promote themselves, but also in the long term, it is the premier way to build a high performance and skilled IT workforce for New Zealand and indeed the world, which we will all benefit from.

# How you can get involved

We offer three generic sponsorship plans to prospective sponsors which can be found below.

However, at CompSoc we are flexible and attentive to our sponsors' varied goals. Hence, we are excited to consider any proposals or requirements that your company may have.

Please do not hesitate to let us know if you would like to discuss a more tailored sponsorship partnership with CompSoc.
